Subject: FW: EPA comments on VG's responses for the Harbor Oil Risk Assessments

Please see email below from one of our risk assessors. Can you send us the PPRTV?

In EPA's response to comments on the HHRA, they mention that we should obtain the provisional peer-reviewed toxicity values (PPRTV) for total TPHs (officially called the "September 30, 2009 final version of Provisional Peer-Reviewed Toxicity Values for Complex Mixtures of Aliphatic and Aromatic Hydrocarbons"). These values are not available to the public, so I sent a message to the email address provided in EPA's comments (STSC_Superfund@epa.gov) and I received an automated "message undeliverable" response. Chris also said that he could send us the PPRTV document - could you see if you could get this from him in advance of tomorrow's call with EPA so that we can review it? Thanks.

Suzanne
